

Report on World Patient Safety Day

Name of the event: World Patient Safety Day

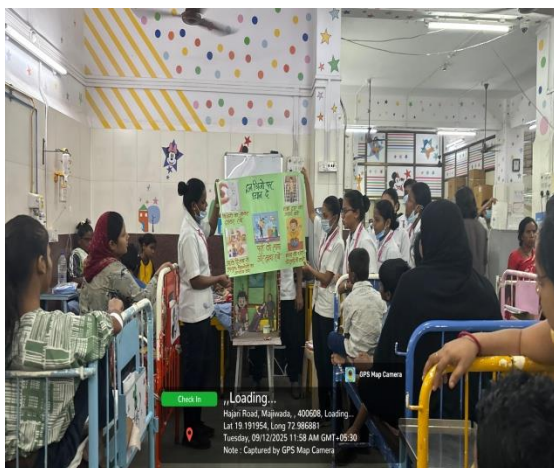

Date: 9th December 2025

Time: 3 pm – 5 pm.

Venue: Chatrapati Shivaji Maharaj Hospital, Kalwa

Students of 3rd year GNM from Smt. Vimladevi Khyalilalji Vagarecha College of Nursing Education, Thane, celebrated World Patient Safety Day in collaboration with the Paediatric Department at Chhatrapati Shivaji Maharaj Hospital. The program was centered on the theme “Safe Care for Every Newborn and Every Child,” highlighting the critical importance of ensuring safety in pediatric care. The session brought together healthcare staff and patients’ relatives, who actively participated and addressed the gathering, emphasizing the need to protect children not only from diseases but also from risks such as neglect and child abuse. The event created a meaningful platform to spread awareness about comprehensive child safety in both hospital and home settings.

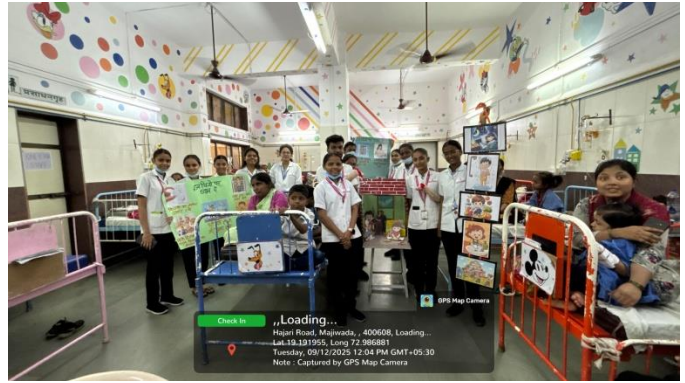

The nursing students played a key role in making the program engaging and impactful by presenting an informative puppet show that demonstrated essential safety measures for newborns and children in an easy-to-understand and relatable manner. They also conducted a health education session based on the theme, effectively communicating practical tips on child care, hygiene, and safety precautions to parents and caregivers. The program proved highly beneficial for the audience, especially parents, as it enhanced their awareness and understanding of child safety practices. The Paediatric Department appreciated the students for their enthusiasm, creativity, and dedication, acknowledging their efforts in promoting awareness and contributing to safer healthcare practices for children.
